

RPS 10 year anniversary

RPS Appointed Channel Partner for HP Jet Fusion 3D Printers

RP Support has been appointed as a channel partner by HP for the sales and servicing of HP 3D printing systems and accessories within the UK market.

The HP Jet Fusion 3D 4200 printer provides outstanding, reproducible part quality. And with high speed productivity coupled with lowest cost per part, it opens the door to short run digital manufacturing of thermoplastic parts.

Contact us now for further information and to arrange a demonstration.
